HONDO, MEDINA COUNTY, TEXAS, SATURDAY, NOVEMBER 3, 1923.

VOL. 38. No. 13

**DISTRICT COURT.**  
second week of the district  
opened at the court house at  
Monday morning, and the  
were empanelled as a petit  
the week: Zeno Forester,  
Tondre, Frank Muennink,  
ch, Neal Briscoe, P. G.  
Ed. Finger, G. C. Mc-  
Albert Bilhartz, Wm. Jung-  
Bless, Horace Bradley,  
son, Ed. Moehring, Robert  
son, A. C. Thallman, Adolph  
ch, Jacob Stein, Gus Rothe,  
erichs, R. A. Carter, Albert  
Jim Clemens, Chas. H. Bal-  
Robert Decker.  
se of Will Allen, adminis-  
al vs. Sallie M. Gray et al.  
deed, etc., which was in  
of the jury last week-end,  
a mistrial, the jury failing  
on a verdict.  
se of State vs. Earl Kirk-  
charged with theft of over  
value was called for trial.  
Defendant entered a plea  
and his punishment as-  
two years in the State peni-  
by the following jury:  
Zeno Forester, R. A.  
erry Fierichs, Albert Ben-  
Briscoe, Andrew Bless,  
Toby Koch, P. G. Fuller-  
ert Decker and G. C. Mc-  
Defendant was charged with  
of the Wurzbach car the  
the Queen's ball at the  
county fair.  
to the very inclement wea-  
has prevailed the greater  
the week, the business of  
is moving slowly and it is

possible the term will extend into  
the coming week.  
Before adjourning for the term  
last week the grand jury made the  
following recommendations to the  
court:  
To the Hon. R. H. Burney, Judge of  
the District Court of Medina  
County, Texas.  
We the Grand Jury empanelled by  
your Honor for the above term of  
said Court, beg leave to report as  
follows:  
1. We have inquired into all al-  
leged offences coming within our  
own knowledge, or presented before  
us by the county officials, and by  
record of examining trials, and here-  
with return bills of indictment in all  
cases which we believe susceptible  
of conviction upon trial.  
2. We respectfully recommend to  
the county officials and the people  
of Medina County that the process  
of tick eradication be continued to  
final effect. We find Medina County  
to be about 95 per cent clean of  
ticks; at the same time, the approp-  
riation for this work derived from  
the sale of county warrants is prac-  
tically exhausted. We believe that  
the citizens, especially cattle owners,  
should be willing to contribute such  
amount from time to time as will  
provide the necessary funds to com-  
plete such work of eradication.  
3. We respectfully recommend that  
your Honor appoint a county audit-  
ing committee to be composed of  
three members whose duty it shall be  
to audit all the official books of the  
County, under the express stipula-  
tion that such a committee shall com-  
plete its labor and submit a written  
report to the District Court on the

return day of the next term of this  
Court.  
4. We have inspected the court-  
house, jail, and out-buildings and  
find same in sanitary condition and  
a good state of repairs. The pris-  
oners appear properly fed and pro-  
vided with suitable accommodations.  
5. In conclusion we beg to thank  
your Honor for the helpful sugges-  
tions incorporated in your charge to  
us. Our labors have been made con-  
venient by the intelligence and ac-  
tivity of the bailiffs appointed for  
our assistance.  
6. We beg to advise that we have  
completed our labors and that  
nothing remains before us within our  
knowledge requiring our further at-  
tention, and therefore respectfully  
ask that we be now discharged.  
Respectfully submitted,  
H. G. Wilson.  
Foreman of the Grand Jury.  
The infant child of Mr. and Mrs.  
W. G. Poehler was baptized in the  
New Fountain Lutheran Church by  
Rev. C. P. Hasskari. The little man  
received the name of Milton Louis.  
Mr. and Mrs. Alfred Schlentz were  
the sponsors. After the church ser-  
vices a number of relatives and  
friends gathered at the beautiful  
home of Mr. and Mrs. Poehler and  
enjoyed a splendid dinner and sev-  
eral hours of social intercourse.  
Immediately after the close of Sun-  
day service, the New Fountain Luth-  
eran congregation held an impromptu  
meeting and voted to so arrange the  
divine services that such a service  
will be held regularly at 2 P. M.  
every second and at 10 A. M. every  
fourth Sunday in the month.  
Just phone 115, for your hauling.

The dinner and bazaar give Satur-  
day by the ladies of the Catholic  
church was handsomely patronized  
and netted the church something  
over \$500.00.  
For Sale, a few thoroughbred S. C.  
Black Minorca Cockrels. Joe Stein-  
le, Dunlay, Texas.  
That \$25.00 milk separator, Hol-  
loway Bros.

**CARD OF THANKS**  
We wish to thank the good people  
for their kindness during the illness  
and death of our dear little baby,  
and for the beautiful floral offerings.  
May God bless each and every one.  
C. F. Chisum  
and family.

**NOTICE**  
All communicant members of St.  
Paul's Lutheran Church will please  
note that on the second Sunday in  
Nov., Nov. 11, 1923, the Lord's Sup-  
per will be celebrated in the Eng-  
lish language. Please make your an-  
nouncements accordingly, if you  
desire to commune.

The Methodist conference at Gon-  
zales returned Rev. A. M. Foster to  
the Hondo charge for another year.  
This was good news to the friends of  
Rev. Foster and his estimable family,  
many of whom they have gathered  
to themselves, both in and out of  
the Methodist congregation, during  
their first year's stay in our little  
city.

There was the usual shifting of  
preachers by the annual Methodist  
conference. The Uvalde district,  
however, retains its Presiding Elder,  
Rev. F. Webb. Hondo retains her  
pastor, Rev. A. M. Foster, for another  
year. Rev. F. W. Rodetzky was re-

## PROFIT BY THIS.

### Don't Waste Another Day.

When you are worried by back-  
ache;  
By lameness and urinary disorders

Don't experiment with an untried  
medicine.

Follow Hondo people's example.  
Use Doan's Kidney Pills.

Here's Hondo testimony.

Verify it if you wish: Ask your  
neighbor.

Mrs. P. H. Renken, tinsmith, says:  
"I have used Doan's Kidney Pills and  
they have been used by others in my  
family with the best or results. My  
kidneys were disordered and acted  
irregularly. I saw Doan's Kidney  
Pills advertised and started to use  
them. One box of Doan's entirely  
removed the trouble."

### Always Gets Good Results.

Four Years Later, Mrs. Renkin  
said: "I am just as firm a believer  
in Doan's Kidney Pills now as when  
I previously endorsed them. I use  
Doan's when my back or kidneys  
bother me and they always cure the  
attacks."

Price 60c, at all dealers. Don't  
simply ask for a kidney remedy—get  
Doan's Kidney Pills—the same that  
Mrs. Renkin had. Foster-Milburn

## GIRLS BASKET BALL

The Hondo High girls beat Pear-  
sall in basket ball on home grounds  
Saturday afternoon. The game was  
marred by discussions over points.  
As has been remarked before, the  
ruling of two points against one in  
different throws for goal only makes  
for trouble. Hondo girls are note-  
worthy for fair play, and won the  
game, 15-11, by excellent team work.  
Mr. Howell acted as referee for  
Hondo. Hondo's team and substi-  
tutes for the day were Corinne Rey-  
nolds, captain, Bessie Mae Mask,  
Rhoda Mae Taylor, Irene Haas, Jerry  
Fusselman, Thelma Lynch, Annie  
Frerichs, Lottie Holloway, Anne  
Davis, Elvira Rothe and Ina Holla-  
way.

The teams entertained with a ban-  
quet at the auditorium for the Pear-  
sall teams and rooters. Over 100  
people were present. The Hondo  
Band furnished music.

#### MASTODON TOOTH

Superintendent Saathoff has found a mastodon tooth that is the most perfect ever found in this section if not the most perfect found anywhere. It is believed that it is possible that this tooth is many centuries old from its perfect condition one can imagine that less than half a century it was doing service in the mouth of its original owner. It is between two and three inches across the top and somewhat flattened at the base. The cavities in the tooth are sufficiently deep to hold a good sized finger to be for an inch or more. On this tooth and the enormous size cannot help speculating that it would have been in a dentist's office had the owner of this molar been with toothache and dental gold filling.

A bone of the mastodon was embedded in a rock in the bed of the Verde by Mr. Ben Weimers. It was still intact in the rock in a wonderful state of preservation. Other specimens of mastodon bones have been found in this section. We doubt if any in as good a state of preservation has ever been found. Prof. Saathoff is improving his possession.

#### THE EAGLE PASS GUIDE.

Fillman, or the Citizens Association, went to Hondo Saturday to visit the homefolks.

Gones went to Hondo Saturday to visit his car which he had to account of bad roads upon return from the Association.

Walker, who was formerly with the Fire Department, but who is now the position of superintendent of the light plant at Hondo, was to the home of his parents at Hondo yesterday suffering with an acute attack of influenza. He is reported to be resting today. His brother, Harter, accompanied him.

#### FARM LOANS.

Hondo National Farm Loan Association, H. E. Haass, Secretary, Hondo, Texas, represents borrowers, with \$600,000 is prepared to make farm loans in Medina County under the Federal Farm Loan Act at 5 per cent interest and 1 per cent amortization repayment. Any thousand Texas farmers taking advantage of this borrowing over eighty million. Why not you? Former loans have been taken off and borrow for any purpose in the Act, as a farmer.

#### THE RAIN

This section has been in the throes of a decidedly inclement spell of weather this week. After a few days of threatening weather, rain began falling shortly after daylight and continued throughout the day, Wednesday, with short intermission, and up to 10 o'clock Thursday morning Judge Haass' gauge showed a total precipitation of 1.58 inches.

Golden Bros. show, which was scheduled for two entertainments here Wednesday, was rained out. Owing to the softened conditions of the streets, the show people were prohibited by the county officials from either parading or moving their paraphernalia, animals, etc., from the railroad to the show grounds, on College Square, and were also denied the use of the grounds. Nothing else to do, the show people unloaded back on the cars and went to the next stopping point, very much to the disappointment of our children population—and some of the grown-ups. It would have been impossible for the show to have drawn a paying patronage even if it had been allowed to show as the weather was too inclement for people to attend.

The horse race scheduled between the Garrett mare and the King horse, both of Devine, which was to be run here, was also rained out and it is the purpose, we understand, to run this race today (Saturday), weather permitting.

Nearly everybody, save the farmer and stock man, is kicking and the latter two are smiling and wishing for more.

#### Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE consists of an Ointment which Quickly Relieves by local application, and the Internal Medicine, a Tonic, which assists in improving the General Health. Sold by druggists for over 40 Years. F. J. Cheney & Co., Toledo, Ohio.

## RED CROSS MET TEST IN JAPAN FUND DRIVE

Spirit of Service Demonstrated in Readiness for Nationwide Activity.

When President Coolidge by proclamation designated the American Red Cross as the medium through which contributions for relief of the Japanese earthquake sufferers should flow the President's desire came as an order to the Red Cross. Immediately the entire machinery of the organization was put in motion and within 2 hours the fund campaign was moving with vigor in every part of the country.

This emergency test demonstrated the peacetime readiness of the Red Cross to cope with stupendous tasks in behalf of humanity. Within a month it had collected upwards of \$10,250,000 in contributions, landed ten cargoes of supplies at Japanese ports and was keeping pace with relief requirements—all without a single dollar of the fund being spent for administration.

President Coolidge in expressing his thanks to the people, said: "When the news of the tragedy in Japan first reached us, the American Red Cross, pursuant to a proclamation, asked the country for \$5,000,000 to meet the great emergency. The answer to this appeal was prompt and generous; in less than two weeks a sum far in excess of the original goal was given." The work of the Red Cross for Japan is expected to influence a very large enrollment of new recruits during the Roll Call, which starts Armistice Day.

## "Built Me Up"

"I USED Cardui for years and it did me more good than any medicine I ever used," writes Mrs. M. C. Ragsdale, of Fort Towson, Okla. "I used to suffer with womanly trouble that weakened me until I was a mere shadow, nervous, and could not sleep. I did not feel like I could live."

"It seemed that nothing helped me till I heard of Cardui and began to use it. It

strengthened me and, as 'twas recommended to do, it regulated and built me up till I was like another woman."

If you are weak, run-down and feel that you need a tonic, take Cardui, the woman's tonic, the tonic about which you have always heard, the tonic that helps weak women regain their strength.

Cardui acts on the womanly system and helps relieve pain and discomfort due to female ailments.

Try Cardui, today, for your trouble.

### ALL USE TOBACCO IN SIAM

Even the Smallest of School Children  
Are Not Seen Without the  
Inevitable Cigarette.

Outside the sun beats relentlessly on the stones of Bangkok, but it is cool in the dark interior of the tobacco shop. Women and girls in their cotton "panung" sit on the highly polished teakwood floor and wrap cigarettes in dried banana leaves. A few packages, rolled in the petals of lotus flowers, made more fragrant with extract of vanilla, are being prepared for a rich merchant. Soon one of the women of the shop will take her baskets and hawk the cigarettes through the streets, jostling against yellow-clad monks holding out their bowls for a little rice and small boys on their way to school with cigarettes tucked behind their ears, according to "Pipes of Peace," by Elsie P. Well, in Asia Magazine. For every one smokes in Siam. Little girls adorned with anklets and bracelets of gold, gentle ladies in their graceful silk panung and white tunics, officials and beggars—all are addicted to the native cigarettes made of strong, coarse tobacco, much of which is grown along the upper reaches of the Menam Choa Phaya.

### REVEALED IN DREAM SKETCH

Facts of Which Great Scientist Was  
Ignorant Shown to Him in  
Sleeping Vision.

When Agassiz was at work in Paris on a particularly baffling fragment of fossil fish he dreamed one night that he saw the completed form. On waking he could not get it. Further, on going next day to the specimen in the Jardin des Plantes, he could not get it. Next night he had the same vision, but it eluded his waking consciousness. The third night he determined to catch it, and so laid pencil and paper on a table beside his bed. The vision came again, and still half dreaming, he sketched it in the dark. In the light of the morning he was much surprised at many details of the rough sketch. He thought they could not possibly be true of the specimen. But on repairing to the specimen and chiseling away the rock in places where the sketch showed parts he had not seen, he actually found the parts as in his dream sketch. This is related here to show again how the prefiguring of the imagination brings in data and builds the plan upon which they are organized.—Thomas H. Haines in Mental Hygiene.

#### One Day Late.

Moving to a new home had kept me busy for some time, so busy I neglected to attend church.

One day the minister was calling on our street and dropped in to see me. During his call he invited me to attend a special service the following Sunday. I promised to be there, and to convince him that I really meant to fulfill my duty towards the church I told him I had already rented a pew which I hoped to occupy regularly.

At the first opportunity I telephoned the church steward to secure a vacant pew, only to be informed that no seats were rented—all were free.—Chicago Tribune.

#### Not Sufficiently Versatile.

The Jaxons, like every other set of parents with a four-year-old, have a four-year-old prodigy, who, despite his remarkable advancement for one of his immature years, has to wrestle with the language of the Immortal Declaration much as Jaxon had to wrestle with the Sunday roast fowl.

It was an unmitigatedly tough fowl and a piece of the doughty bird had stuck in the youngster's throat. Retrieving it deftly with his fingers he registered this plaint:

"Mother, this won't swallow down my neck. It'll just chew."

#### Too Much for Him.

"What's become of the barber who was shaving me?"

"He's having a fit in the rear," said the proprietor, who had taken the missing artist's place.

"Do you mean to tell me you employ a man to shave the people who is afflicted like that?"

"I haven't the heart to turn him out. Bill is a good worker and he never had fits until women started to coming in here to get their hair bobbed."—Birmingham Age-Herald.

#### Lame, Perhaps.

Blobb—There is always room at the top.

Neville—Yes, but the majority of people are always waiting for a lift to take them up.—Answers.

## THE NEW LUTHERAN PARSONAGE

### LUTHERAN PARSONAGE

Early in the year 1923, the members of the St. Paul's Lutheran Church of Hondo concluded that the time had come to erect a parsonage for the use of the pastor of said church and his family.

A building committee, consisting of P. R. Richter, W. J. Fuoss, Henry Frerichs, H. E. Haass, E. H. Hartman and Fritz Bohlen and Miss Mollie de Montel, was selected, to select plans, etc.

The Ladies Aid Society of the church very generously purchased the beautiful and suitable building lot south of the church from Mrs. X. Wantz and donated same to the congregation as a building site.

The building committee, after sev-

eral attempts, finally on July 6th received bids for the lumber and material, for erection and painting, etc., and contracts were entered into with Hondo Lumber Co. for the material, with Chas. Krenmueller for building, and with M. H. Reyman for papering, painting, etc., at a total cost of \$3,238.50.

The building plan selected was a bungalow style, one story, six rooms, hall and bath room with all modern conveniences, and was finally completed for occupancy on Oct. 1st.

The dedication services were held last Sunday afternoon, Oct. 28th. Rev. A. L. Wolff of St. John's Lutheran church, San Antonio, Texas and the local pastor officiating.

The congregation is proud of the nice building and the building committee wishes to extend thanks to

all who have donated towards its erection.

The above article was kindly furnished by Judge H. E. Haass, who as chairman of the building committee ever and anon kept a watchful eye upon all the committee proceedings and building operations until the whole work was brought to a successful conclusion. Thanks and appreciation are his due reward.

In a large measure also the thanks of the congregation is extended to every individual member of the building committee who so faithfully kept to their part of duty in solving many difficult problems, thus sharing in the satisfaction of having completed a noble work.

Rev. G. E. Grueber.

### Texas Woman Reports Gain

Mrs. Rogers Says That Dr. Thacher's  
Liver and Blood Syrup  
Built Her Up.

"Dr. Thacher's Liver and Blood Syrup deserves a place in every medicine closet in the land," declared Mrs. A. W. Rogers, of 226 S. Covington street, Hillsboro, Texas.

"I was badly run down in health and suffered constantly from indigestion and a disordered stomach. Most everything I would eat disagreed with me and I had to be careful about my diet.

"After trying different kinds of medicines I decided to try Dr. Thacher's Liver and Blood Syrup. I took six bottles and it not only regulated my bowels but entirely relieved my indigestion. I have already gained several pounds in weight."

Dr. Thacher's Liver and Blood Syrup is sold by W. H. Windrow and if the first bottle fails to bring relief the purchase price will be refunded.

### HIGH GRAVITY OIL FOUND INA NO. 2 TO GO DEEPER

Ina Oil Company's No. 1 well, nine miles west of Hondo in Medina County, is making a quantity of gas according to reports from the field brought by oil men. The rig has been moved back off the No. 1 to the No. 2 hole and two days ago the No. 1 began making so much gas that it can be heard quite a distance from the well.

"Reports for the field Friday were that the No. 1 was carried down through the cap rock at 927 feet with a very small hole. This well is only fifty feet from No. 2 which is closer than they are permitted under the State regulations and the purpose of drilling it deeper was to ascertain what was under the caprock without endangering the No. 2, which was completed to the first sand above the caprock.

Having determined that the sand below the rock is an oil bearing sand and having gone 22 feet into it, sufficient to determine that it carried a high gravity oil, the rig was moved back onto No. 2 and the No. 2 will be completed into the second sand.

Ten inch casing has been sent out for the B. J. K. Oil Company well on Survey 12, which has gotten through the surface gravel found in the field and will set the first surface casing. The B. J. K. did not find as much of the gravel as some of the first wells drilled in that field. Slow progress is made on all the wells until the loose gravel near the surface is passed up after which better drilling is had.

The B. J. K. Well is just south of the McBride well which is now down 400 feet where it had a show-

ing of oil.

Samples of oil taken from the Jake Wolfe well on Survey No. 532 at a depth of about 300 feet is said to have been of a yellow color and smelled like cedar oil. It has been sent away for analysis and identification. The well tested out good for one or two barrels a day but is being drilled deeper.—S. A. Express.

## NOTICE TO CONTRACTORS

For State Road and Bridge  
Construction.

Sealed proposals addressed to R. J. Noonan, County Judge, for the improvement of certain highways of Medina County, will be received at the office of the County Judge at Hondo, Texas, until 2:30 P. M., Monday, November 5th, 1923, and then publicly opened and read.

**Description of Work to be Done.**  
Work to be done consists of clearing and grubbing, excavation, construction of drainage, structures and placing of gravel surfacing, all under Standard Specifications of the State Highway Department, governing the building of a gravel road. The road will be 1.56 miles long and known as section B. of State Highway No. 3 in Medina County.

The County will set aside cash funds for paying its pro rata share of the cost of the above road and these funds will be paid the contractor or as long as the money lasts. When these funds are exhausted through payment of monthly estimates, the contractor thereafter must expect to wait until the State Highway Department releases from time to time its own funds for this work.

Detail plans and specifications of the work may be seen for examination and information obtained at the office of the County Judge and County Engineer, Hondo, Texas; also at office of Walton & Arneson, Engineers, 418 Gunter Building, San Antonio, Texas, and at the office of the State Highway Department, Austin, Texas.

A certified check for \$3500 made payable to R. J. Noonan, County Judge, Medina County, must accompany each proposal as a guarantee that the bidder, if successful, will enter in contract and make bond in accordance with requirements of the specifications. The right is reserved by the party of the first part to reject any and all proposals or to waive technicalities. Proposals shall be submitted in sealed envelopes marked "Bids for the Construction of Section B., Highway No. 3, in Medina County," and the bidder's name shall be marked in the upper left hand corner of said envelope.

All bids received will be retained by the Department and will not be returned to the bidder.

## Red Cross First Aid Standards Adopted In Great Industries

First aid in an emergency which assures the injured competent attention until the doctor arrives is making marked headway through the work of the "Chapters" of the American Red Cross. In populous centers 314 chapters conduct first aid classes and last year awarded 9,500 certificates to students. Eight big telephone companies have enlisted their workers in first aid classes, police and fire departments in large cities are making the course compulsory in their training schools and through colleges and high schools large groups of students receive instruction. The Red Cross also gives this course through Boy Scouts, Girl Scouts, Y. M. C. A. and similar organizations, and its standard methods have been adopted by railroads, electric and gas companies, mines and in the metal industries. The aim of this Red Cross service is to cut down radically the average of 60,000 accidental deaths per year in the United States.

"Our country could secure no higher commendation, no greater place in history, than to have it correctly said that the Red Cross is truly American." —President Coolidge.

## RED CROSS PLANS FOR COMING YEAR

Over \$2,000,000 in Fund for War Sufferers—National Budget Is \$5,543,077.

### AID TO VETERANS STANDS FIRST

Expended \$9,738,448 in Services to Mankind Last Year at Home and Abroad.

Washington.—With a budget of \$5,543,077.81 for carrying out the program of service during the current fiscal year, beginning July 1, the American Red Cross announces that this amount was \$4,195,370.41 less than was expended during the fiscal year ended last June 30. During that year expenditures reached a total of \$9,738,448.22, of which amount \$2,605,696.09 was devoted to relief of refugees in Greece who had been driven out of Asia Minor. In announcing the budget for the year, the statement from National Headquarters emphasized the fact that its extensive work at home and abroad depends almost wholly upon the nation-wide support of the organization through enrollment of membership in large numbers during the annual roll call, which will be in progress from November 11 to November 29 under the auspices of the 3,600 Chapters in the United States and throughout the world. These Chapters, it is pointed out, during the last fiscal year expended of their own funds approximately \$3,920,000 in work for the men who wore the United States uniform during the World War, so that the estimate of some \$15,000,000 expended during twelve months by the American Red Cross as a whole is considered conservative.

### Soldier Service Stands First

From July 1, 1917, to June 30, 1923, the American Red Cross spent nationally and through its Chapters close to \$164,000,000 in behalf of American soldiers who served in the war and their families. During last year the figure alone mounted to more than \$8,866,255, and for the current fiscal year National Headquarters has set aside under the heading, "Assistance to Disabled ex-Service Men and Women," \$2,045,834.20. The Chapters will continue to do their part, so that it may be predicted with confidence that again more than \$5,500,000 will be disbursed in the large variety of services to the disabled men and women and their families—services for which the Government cannot provide and which reach the individual case with the sympathy and understanding only actual contact can insure. This work of the American Red Cross approaches the fifth anniversary of the Armistice, which ended the World War with only slight decrease in calls for service in the interest of the welfare and rehabilitation of those who suffered physical disability in the service of their country.

In the interest of the enlisted men serving in the Army and the Navy the budget provides \$309,029 for the current year. This is obligatory under the Red Cross charter, for the organization must act in matters of voluntary relief and as a medium of communication between the people and their Army and Navy.

### Domestic Program Extensive

The domestic operations of the American Red Cross comprise an accurate indicator of the continuing calls for expansion in all the established and authorized services. The budget aggregates \$4,636,449.70, as against expenditures during the last year of \$4,452,666.20. The abnormal demands in the foreign field in the last several years, however, have largely subsided, and in consequence \$906,628.11 has been set for the 1923-24 budget under foreign operations. On this amount \$394,303.91 is set aside for engagements which will close the work for the refugees in Greece, for whose amelioration \$2,605,696.09 was expended up to June 30, when the American Red Cross withdrew, and the work was taken over under the control of the Greek government. For liquidation and completion of general relief in Europe the budget provides \$100,000, and for American Junior Red Cross projects, foreign and insular, and assistance to Chapters listed under foreign operations.

### Ready for Emergency Calls

The readiness of the American Red Cross to answer immediately with effective service in cases of emergency is an outstanding feature of its program that is universally recognized. During last year \$525,000 was spent for relief in 110 disasters, which was \$207,500 in excess of budget provisions. This year \$400,000 has been appropriated for this service. Since 1881 the Red Cross has administered more than \$20,000,000 in relief work following disasters.

Other budget items in the schedule for domestic operations include \$1,282,524.20 for service and assistance to the 3,600 Chapters and their Branches; \$80,000 for assistance to other organizations, particularly stressing child health activities; \$194,300 for Junior Red Cross projects and service; \$10,824.20 for assistance to Nurses' Training Schools, and for other activities \$111,456.80. For supervision of service activities and general management of the entire American Red Cross less than \$225,000 is allotted.

## WHY? DO THINGS APPEAR TO WHIRL AROUND WHEN WE ARE DIZZY

INASMUCH as things appear to be going around in a circle when we are dizzy but our common sense tells us that they must be stationary, as always, it would seem that the fault lies in our eyes. But it really lies in, or near, the ear—an organ which apparently has nothing to do with the sight or feeling.

Close to the ear, however, is located the little organ which gives us our power of balance, permits us to walk upright without tottering and, when properly trained, to assume postures which are distinctly outside the regular routine of our daily lives. Eccentric dancers, acrobats, athletes and others have unconsciously trained this "balance wheel" until they can do strange things without, as we say, "losing their balance." When we spin around rapidly, this delicate mechanism is disturbed or thrown just a little out of gear, causing the eyes to move independently of each other and to send different impressions to the brain. This causes the spinning effect which we know as "dizziness," persisting for a longer or shorter period of time, dependent upon the rapidity and length of time for which one has revolved.

## Cut the Cost of Production

Profit in dairying depends to a great extent on reducing the cost per gallon of producing milk. Cows on pasture slip down in milk flow. Experienced dairymen have found they can produce more milk at less cost per gallon, by feeding a little concentrate.

With Cow Chow you can cut the cost of production per gallon, you can put your cows in better condition and get a longer milking period.

Hundreds of dairymen are using Cow Chow to lower milk costs. Cow Chow contains just the right proteins to balance grass and to make it produce more milk.

Cow Chow will make your milk checks bigger and lower the cost of producing the milk per gallon.

## MR. COON GETS EVEN

MR. COON was feeling pretty cross with Mr. Fox, though Mr. Fox did not know this, and Mr. Coon wasn't going to tell him, but his mind was made up the very next time he had a chance Mr. Fox should be paid for treating him in such an unfriendly manner.

It happened that Mr. Fox had been visiting the poultry up at the farm, and the farmer did not think he was the right sort of a caller to have around, so he set Mr. Dog to watch, and he also set a trap, hoping to catch Mr. Fox the next time he called.

But Mr. Fox was too clever to be caught in a trap. He wasn't certain,

Mr. Dog Watching the Door

but he thought there was a trap under the hay by the poultry house window. He wanted to make sure for he had his mind set upon having a turkey dinner some night.

Mr. Fox did not think it wise to risk his feet in finding out about the trap so he trotted over to Mr. Coon's to tell him about some fine young chickens which he was sure his dear friend, Mr. Coon, would like.

"I am waiting for the turkeys to be the right size," he explained to Mr. Coon, "and as I am tired of chicken dinners I thought I would give you a chance."

Mr. Coon thanked Mr. Fox for being so thoughtful, and that very night he trotted up to the farm and caught his toes in the trap, but he managed to

get away and ran home to nurse his sore foot for a week or more without having any food to speak of.

Of course, Mr. Fox was watching not far off, and learned just what he had suspected, and now he would be careful of straw when he was again ready to visit that farm.

While Mr. Coon was home sick he had plenty of time to think, and as he thought he came to the conclusion that Mr. Fox was to blame for all his trouble and suffering, so that was the reason he was so cross at Mr. Fox, and no one could blame him, for one tender toe is bad enough and more than one must be very bad indeed.

One day after Mr. Coon was well he happened to notice Mr. Dog watching the doorway of the home of Johnny Woodchuck and an idea came to him right away.

Mr. Coon waited for Mr. Dog to give up watching and go home for his dinner; then off he ran to tell Mr. Fox that Johnny Woodchuck had a very wide doorway to his home because he was so fat.

Mr. Fox bounded right off for Johnny's home, for he had no idea that Mr. Coon knew the part he played in his being caught in the trap, so he was not at all suspicious.

Mr. Coon knew that Johnny had several openings to his home, that he would be out of the way by the time Mr. Fox got inside, but that was not what he intended for the joke on Mr. Fox.

The doorway was wide just as Mr. Coon had said, for Mr. Dog had helped to make it so, and half of Mr. Fox's body was inside Johnny's house when Mr. Coon, who was watching from a tree, saw Mr. Dog coming on the run, but he was not barking, so Mr. Fox did not hear him.

Mr. Coon smiled. He knew it would not matter at all to Mr. Dog whether it was Mr. Fox he caught or Johnny Woodchuck, and he would give Mr. Fox the worst shaking he ever had in his life, if nothing more.

Mr. Dog came up to Johnny's home. He recognized Mr. Fox at once and grabbed him by a hind leg, which brought him out of the doorway so quickly that Mr. Coon could never be sure how Mr. Fox looked when he saw who had him.

They got so mixed up that Mr. Coon couldn't tell them apart, but Mr. Fox managed to free himself and off he ran with Mr. Dog chasing him.

Mr. Coon called out from his safe place in the tree, "Look out you do not step on a trap, Mr. Fox. Sorry Mr. Woodchuck was not at home."

## 110 DISASTERS IN YEAR ENLIST RED CROSS AID

Nearly \$400,000 Spent in United States — Greek Refugee Work Completed.

For its preparedness to render relief through effective and generous aid to the sufferers from disaster the American Red Cross is universally regarded as the one organization from which response to appeal for help is immediate. In the last year, according to the annual report of the Red Cross, its disaster relief operations were carried out in 110 localities in the United States. This work, with activities carried over from the previous year, required the expenditure in the United States of \$397,468.04 by the American Red Cross, its Chapters and Branches. In the emergency following the defeat of the Greek forces in Turkey and the burning of the city of Smyrna, which entailed the relief of nearly 900,000 men, women and children, Red Cross National Headquarters expended \$2,505,696.09. The food distributed in Greece aggregated 25,000 tons; garments, 809,000; blankets, 48,550; new shoes, 5,000 pairs; medical, hospital and sanitary supplies, 304 tons. In the feeding of the refugees there was listed upwards of 32,000 children under three years of age.

The disasters in the United States during the past year reported 240 persons killed, 991 injured, 12,691 rendered homeless. The total property loss was estimated at \$20,710,000.

Relief of suffering caused by disasters of such magnitude as to overwhelm the resources of the communities in which they occur is fundamental to the charter of the American Red Cross. In addition to making appropriations from its treasury and assigning trained personnel to relief work, the Red Cross in disaster centralizes and makes more effective relief funds and supplies contributed by the country at large.

Since 1881 the Red Cross has administered more than \$20,000,000 for the single purpose of disaster relief. That it may continue to accept the responsibilities which grave emergencies place upon the American Red Cross appeal is made for a nationwide renewal of membership during the annual roll call, which opens on Armistice Day, November 11, and closes on Thanksgiving Day, November 29.

## Life Saving Work Of Red Cross Corps Wars on Drownings

The insignia of the American Red Cross Life Saving Corps on the bathing apparel of men, women and youths is seen everywhere at favorite bathing places along the coasts, rivers, lakes and ponds. In its unrelenting campaign to reduce loss of life by drowning the Red Cross is making constant headway. The demands for instruction from organizations in all parts of the country were so numerous the past year that it was necessary to more than double the staff of Red Cross instructors. This work of training for water life-saving showed an enrollment of over 30,000 volunteers enlisted for duty on patrol, for rescue and resuscitation, all competent to instruct others in the standard water-safety methods. The Red Cross by request of the War Department gives water first aid training at the United States Military and Naval academies and in the military training camps for reserve officers and civilians. The four cash prizes awarded by the Red Cross last year for heroic rescues were conferred upon two girls, a boy and a man, indicating that the youths of the country stand well at the top in conserving life along our water courses.

## Red Cross Field Of Action Covers All the World

Represented by 93,668 members, the American Red Cross penetrates to nearly every part of the world. The insular and foreign roll call statistics for the past year are a most conclusive manifestation of the Red Cross spirit carried into the most remote lands. In Europe there are 4,088 members, in Turkey, and active in the Constantinople Chapter, 3,545. China has an enrollment of 2,252; Africa, 136; India, 224, and Australia, 29. Even Vladivostok, in "rigid Siberia," has a live chapter with 160 members. The Philippine Islands can mobilize 38,747 under the Red Cross banner and Hawaii 7,863. The total funds raised through foreign and insular membership enrollment and sent to national headquarters in Washington amounted to \$60,216.54, while an additional \$33,250 was forwarded for the endowment fund of the American Red Cross. The high seas roll call in 1922 was an inspiring success. The Navy signed on 4,331 for the Red Cross and the merchant ships 4,141. Of the total membership outside the United States 32,990 are registered with chapters in foreign lands, the insular possessions and dependencies.

"I want to; therefore I can!" is the spirit that spurs the Red Cross worker in well-doing.

## THE RIGHT THING at the RIGHT TIME

By MARY MARSHALL DUFFEE

### WHEN VISITING

WHEN you are the visitor, you might think all your responsibilities would end, so far as the financial end of things is concerned. For it is without doubt the duty or privilege of the host and hostess—it depends on them which they consider it—to pay your expenses while you are their guest. That is to say, besides providing you with board and lodging they plan and pay for your entertainment.

However, there is nobody so offensive as a stingy or a selfish guest. The attitude of taking all and giving nothing is one that everybody, and perhaps guests more than anybody else, should avoid. Though, of course, you accept the gift of hospitality from your host and hostess in accepting their invitation, don't be greedy about it.

For one thing, if you make a long visit, by all means suggest some sort of "treat" of your own. You may invite your hostess, if you are a woman, or your host and hostess, if you are a man, to the theater. Don't be officious about it. Don't upset their plans. And be careful not to do it in such a way that you will seem to be planning diversion because you are bored with their plans. But in a tactful way invite them to be your guests for one afternoon or evening.

Then there is the matter of candy. It is always a thoughtful thing of the guest to keep the family supplied in candy—that is to say, to keep them supplied in a limited way. If there are children who are allowed to eat candy, as there are even in this enlightened day, give them a box of candy. Get a box of your hostess' favorite chocolates. And if there are young girls in the family remember that they, too, will be delighted to receive some sweetmeats from you.

# The BROWN MOUSE by Herbert Quick

COPYRIGHT © 1923, HERBERT QUICK COMPANY

WHEN Herbert Quick writes a story it is the time for every one to sit up and take notice; for he is one of the most versatile and entertaining geniuses in this country. Farmer, schoolmaster, lawyer, editor, public servant, social worker and novelist, he has had a great round of experiences and has worked many of them into his stories. Born in Grundy county, Iowa, he has been mayor of Sioux City, nominee for supreme judge, editor of Farm and Fireside, member of the Federal Farm Loan bureau and several other national commissions, and during the war, had the rank of colonel conferred upon him by the Red Cross.

In "The Brown Mouse," Mr. Quick has taken his inspiration from the Scotch scientist who crossed Japanese waltzing mice with the common white breed and among other hybrids got a brown individual that was different from anything else in the world. Unlike its domesticated parents, it was wild; it ran away, bit, gnawed, scratched and raised hob generally.

Jim Irwin, the hero of the tale, is a brown mouse. His peddling father was a waltzing mouse, no good except to jump from one spot to another for no valid reason. His mother was a white mouse, having had all her color washed out in one way or another. Like the brown mouse which refuses to act according to the rules of heredity, Jim had ideas of his own and did many surprising things. He completely woke up a sleepy farming community and showed it what a touch of genius can do.

## YOU CAN BUILD THIS PLEASANT BRICK HOME

THE NEOSHO—DESIGN A-516

The best insurance against want in your old age is to cultivate the habit of ownership—to save, every

day, a part of the money you make by the expenditure of your energy—for your energy is yourself—your savings are your own muscle and brain transmuted into money. And in what better way can the excess energy of your younger days be represented than by a house that will shelter you and your wife when you grow old and your strength is ebbing? The idea that you might find yourself in the home of another, old, helpless, and dependent would be an agonizing prospect, especially if you realized that you might not be altogether welcome. The greatest care should be taken when building or buying your home. Be sure, so far as humanly possible, that it is located in a neighborhood where

values are rising. Build it so that it will require the lowest upkeep cost, and suffer the least depreciation. It would be a tragedy in the days of your old age to have on your hands a piece of property that required a constant large expenditure for maintenance. That is one reason why the man of average means cannot afford anything less than a house built with permanent walls of stone or brick—that never require painting and that do not depreciate in themselves, and that protect the woodwork in the interior of the house from untimely decay. The Neosho, shown here, is a mighty good investment because it is a brick house. With a slate roof, this house will last indefinitely. Considering that the outside dimensions are only nineteen feet eight inches by twenty-five feet two

inches wide, the rooms are surprisingly large. The Neosho is a good house for a small family.

The Common Brick Manufacturers' Association, Cleveland, Ohio, can furnish complete drawings for this design.
